Description

Mosaic support of 1 module in white color, designed for mounting embedded in plaster. This element of the Mosaic program allows the fixation of thin wall panels by means of a fast mounting system, offering a flush installation with the surface.

Technical characteristics

- Material: Thermoplastic plastics
- Surface treatment: No treatment
- Mounting position: Horizontal and vertical
- Modular system: 1 horizontal and 1 vertical module
- Insert assembly method: Front
- Installation to a minimum: Yes
- Not including integrated installation box or screws

The configuration of a single module facilitates installation in reduced spaces, while the possibility of horizontal or vertical assembly offers flexibility in the layout of the panel. The treatment-free finish and thermoplastic material ensure a clean and uniform white aesthetic.
