Niloé Step 10AX 250V Recessed Double Switch

Brand: LEGRAND

Reference: LEGRAND 864006B

Niloé Step 2-module bidirectional switch for recessed mounting. It allows the control of lighting from one or two points by swinging. It works at 250 V~ with an assigned current of 10 A and 10 AX for fluorescent lamps.

Description

The Niloé Step switch is a two-way switch designed to control lighting on and off from one or two different points. This two-module mechanism operates by swing and requires the incorporation of a plate and a swing for its complete operation.

Technical characteristics

- Wiring system: Two-way switch
- Method of operation: Balncín/button
- Number of modules: 2
- Method of assembly: Embedded (spray)
- Type of fixation: Hook and screw
- Material: Thermoplastic halogen-free plastic
- Degree of protection: IP20
- Impact force: IK04
- Nominal voltage: 250 V
- Assigned current: 10 A
- Intensity for fluorescent lamps: 10 AX
- Dimensions: 75.8 mm wide, 75.8 mm high and 34.1 mm deep
- Construction depth: 20.3 mm
- Minimum box depth: 40 mm
- Pilot: Optional with interchangeable LED

This device offers a reliable solution for light management in residential or commercial facilities. Its halogen-free thermoplastic construction and IK04 impact resistance guarantee durability and safety in daily use. The recessed mounting with hook and screw fastening ensures a stable and discreet installation on the wall.

Specifications

Rated current (A)	10
EAN	3414972879385
Manufacturer	LEGRAND
Intensity	10
Long	75.8 mm
Halogen-free	Yes
Material	Termoplástico
Measures	75.8 mm x 75.8 mm x 34.1 mm
Weight (kg)	0.1 kg
Depth	34.1 mm
Protection	IP20
Rated voltage	250
Nominal voltage (V)	250 V
