Description

The Zumbador Niloé Step is an acoustic signal device designed for indoor use in homes. Its main function is to emit a continuous sound alarm, allowing its activation by means of push-buttons, such as the handle of a bathroom, to indicate presence or need for attention discreetly and effectively.

Technical characteristics

- Power supply: Alternative current (CA) 230V~ 50/60Hz
- Power: 16W
- Colour: Matt white
- Carcass material: Plastic without treatment
- Degree of protection: IP21
- Tone type: Continuous
- Includes built-in transformer

This equipment offers a practical solution for sound signage in domestic spaces. The inclusion of an integrated transformer simplifies the electrical connection, while its white plastic housing is easily integrated into the interior decoration. The degree of protection IP21 makes it suitable for dry environments, ensuring a safe and stable operation on a day-to-day basis.
