Automatic clamp 250 mm forged steel

Brand: FACOM

Reference: EDM 19113

250 mm automatic pressure clamp with closing mechanism that adapts the opening to the part. It allows to adjust the pressure without modifying the distance, optimizing the work in series. Incorporates non-slip striated handle and unlock by internal lever.

Description

250 mm automatic pressure clamp designed to hold parts with an automatic locking mechanism that adapts the jaws to the size of the jaw. This system allows you to adjust only the tightening pressure without needing to reset the opening, optimizing the working time in series.

Technical characteristics

- Measure: 250 mm
- Type: Pressure gag
- Material: Chromium-molybdenum forged steel jaw treated
- Mango: Striated with non-slip texture
- Characteristics: Internal opening lever unlocking system
- Characteristics: With automatic locking mechanism

The combination of forged steel jaw and non-slip textured handle offers a firm grip and safe handling. Unlocking with one hand by means of the internal lever facilitates continuous operation.

Specifications

EAN	3148517716223
Manufacturer	FACOM
Material	Acero forjado
Measures	250 mm
