Description

Multipurpose scissors designed specifically for skill, equipped with an ergonomic grip that facilitates handling and reduces fatigue during prolonged use. They are versatile tools suitable for cutting a variety of materials, including thick cardboard, 0.2 mm thick aluminum, rubber and 3 mm leather, as well as rope and other similar elements.

Technical characteristics

- Type: Multifunction scissors
- Idoneum: Thick cardboard, aluminium (thickness 0.2 mm), rubber (thickness 3 mm), leather (thickness 3 mm), rope
- Sheet: Wire of stainless steel
- Handle: Ergonomic bimaterial for the right

The combination of burnished stainless steel blades and the bimaterial grip structure ensures a precise and comfortable cutting. This configuration allows to tackle cutting tasks in different materials with efficiency and control, taking advantage of the ergonomic design oriented to the right hand.
