Description

This repair kit is specifically designed to restore the functionality of cup hinges on the door side. It allows renewing the hinge fixing when the original material has suffered wear or damage, ensuring a safe and stable installation through reinforcement components.

Technical features

- Cup diameter: $\varnothing$ 35 mm
- Application: Door side
- Total content: 17 pieces
- 2 repair plates of 90 x 90 mm
- 1 self-centering drill bit of $\varnothing$ 2.5 mm for prior vertical drilling
- 4 M4 x 17 mm screws
- 10 M4 x 13 mm screws

The inclusion of 90 x 90 mm repair plates allows distributing the load and reinforcing the anchoring area. The self-centering drill bit facilitates the preparation of the necessary holes for precise fixing. The screws of different lengths offer versatility to adapt to different material thicknesses.
