Description

2-inch clamp retention valve designed to ensure unidirectional flow in fluid systems, avoiding unwanted return on horizontal lines.

Technical characteristics

- Nominal diameter: 2 inches.
- Nominal pressure: PN10.
- Body material: Brass according to UNE-EN 12165.
- Closing material: NBR (rubber) with hardness 65 Shore.
- Extremos: Female-female gas Thread according to ISO 228/1.
- Working temperature range: from -20oC to 90oC.
- Assembly orientation: Horizontal.

The combination of brass and elastomer NBR offers a balance suitable for general services within the specified thermal range, ensuring reliability in the pass control.

Specifications

Diameter	2 pulgadas
EAN	8428381609520
Manufacturer	Genebre
Material	Latón

Measures	2 pulgadas
