NIRON 90 mm Termofusion Joint Flat Type A Coupling

Brand: Italsan

Reference: ITAL NCOSA 90

90 mm diameter NIRON housing with flat gasket type A. Designed for thermofusion socket unions, it guarantees the structural integrity of the system. It allows the creation of a unique body between tube and accessory, ensuring the tightness and security of connection in polyethylene installations.

Description

NIRON housing 90 mm in diameter designed for connection of pipes by thermofusion. It incorporates a type A flat joint that facilitates the secure connection between components, allowing the tube and accessory to form a unique body after the fusion process. This design seeks to guarantee the integrity of the bonding in fluid installations.

Technical characteristics

- Nominal diameter: 90 mm.
- Type of assembly: Plane type A.
- Method of binding: Socket-type thermofusion.
- Mark: NIRON.

The flat joint configuration and thermofusion bonding contribute to the stability of the connection. By creating a unique body, the safety in the connection of the tube with the accessory is enhanced, reducing weak points in the installation.

Specifications

Diameter	90 mm
EAN	8017175005886
Manufacturer	Italsan

Material	Polietileno
Measures	90 mm
