45-degree elbow polypropylene 63 mm socket welding

Brand: Italsan

Reference: ITAL 03NC45RED63

45-degree elbow for polypropylene NIRON RED pipes with a nominal diameter of 63 mm. Designed for welding socket connections, it allows directional changes in plumbing facilities. Made of corrosion-resistant and pressure-resistant material, it guarantees watertightness and durability in hot and cold water systems.

Description

45 degree NIRON RED elbow, specifically designed for polypropylene pipes with a nominal diameter of 63 mm. This hydraulic accessory allows to make changes of direction in the installations maintaining the integrity of the flow and the watertightness of the system.

Technical characteristics

- Turn angle: 45°
- Nominal diameter: 63 mm
- Mark: NIRON RED
- Connection type: Solder socket
- Category: Polypropylene accessories and fittings

Polypropylene manufacturing ensures compatibility with socket welding connections, ensuring a firm and durable connection. This component facilitates the construction of precise hydraulic circuits in plumbing systems, optimizing the route of pipes without compromising the safety of the installation.

Specifications

Diameter	63 mm
EAN	8017175031663
Manufacturer	Italsan

Material	Polypropylene
