

Product sheet

45 degree elbow polypropylene 40 mm

Brand: Italsan

Reference: ITAL VS0504017

45 degree elbow made of recycled polypropylene with nominal diameter of 40 mm. Compatible with the PP3 Phono system, it allows drainage pipes for waste water at low and high temperature, as well as for ventilation and evacuation of rainwater, operating as a technical alternative to PVC Series B in plumbing facilities.

Description

45 degree elbow made of recycled polypropylene, designed to drift drain pipes and facilitate the change of direction in plumbing facilities. It works as a technical alternative to PVC Series B, allowing the management of water flows in various thermal conditions.

Technical characteristics

- Material: Recycled polypropylene.
- Nominal diameter: 40 mm.
- Turn angle: 45 degrees.
- Compatible system: PP3 Phono.
- Implementation: Evacuation of wastewater at low and high temperature.
- Additional use: Ventilation and evacuation of rainwater.

The composition with recycled material and its compatibility with the PP3 Phono system allow its integration into installations that require thermal resistance for both cold and hot water. Its angular design facilitates the change of direction in the evacuation lines, maintaining the integrity of the flow in rain and ventilation systems.

Specifications

Diameter	40 mm
----------	-------

Manufacturer	Italsan
Material	Polypropylene
Measures	40 mm
