Description

45 degree angle connector made of recycled polypropylene, designed to integrate connections into sewage, ventilation and rainwater disposal systems. It offers a technical alternative to PVC Series B in sanitary facilities.

Technical characteristics

- Material: Recycled polypropylene
- Nominal diameter: 50 mm
- Angle: 45 degrees
- Compatible system: PP3 Phono
- Implementation: Waste water at low and high temperatures, ventilation and rainfall
- Alternative: PVC series B

The composition in recycled polypropylene allows to manage fluids at different temperatures, maintaining the structural integrity of the evacuation system.

Specifications

Diameter	50 mm
Manufacturer	Italsan
Material	Polypropylene
