M Thread Hexagonal Type B NIRON 63x2 Coupling

Brand: Italsan

Reference: ITAL NRFM 632

NIRON type B hexagonal male thread link with 63 mm diameter and 2 inch thread. Designed for socket-type thermofusion connections, it guarantees the structural integrity of the connection in pipe systems, minimizing leakage risks and ensuring the safety of the system installed through a single body.

Description

The 63x2" M NIRON thread link is an accessory designed for the safe connection of pipes by thermofusion welding. Its hexagonal structure type B allows easy handling and ensures a robust bonding in fluid systems.

Technical characteristics

- Diameter: 63 mm
- Thread: 2 inches
- Connection type: Type B hexagonal male Thread
- Method of binding: Socket-type thermofusion
- Mark: NIRON

The socket-type thermofusion technique integrates the tube and accessory into a single body. This process minimizes leakage risks and guarantees the structural integrity of the connection, ensuring the security of the installed system.

Specifications

Diameter	63 mm
EAN	8017175003493
Manufacturer	Italsan

Measures	63 mm x 2 pulgadas
