NIRON M Thread Coupling 75x2.1/2

Brand: Italsan

Reference: ITAL NRFM 75212

Niron type B hexagonal male thread link with diameter of 75 mm and 2.1/2 inch thread. Designed for thermofusion bonding socket in pipe systems, this accessory integrates the tube and piece into a single body, ensuring the sealing and structural integrity of the installation by welding.

Description

The M NIRON thread link is a thermofusion accessory designed for the safe connection of pipes. Its main function is to allow the joining of components by welding, guaranteeing the structural integrity of the installation.

Technical characteristics

- Diameter: 75 mm
- Screw measure: 2.1/2"
- Thread type: Type B hexagonal male
- Method of binding: Socket-type thermofusion

The connection is made by thermofusion welding, which allows the different components to form a unique body. This process results in total safety in the connection between the tube and the accessory, minimizing risks of leakage or detachments.

Specifications

EAN	8017175003509
Manufacturer	Italsan
Thread	1/2"
