NIRON M thread coupling 90x3 diameter

Brand: Italsan

Reference: ITAL NRFM 903

NIRON threaded link of 90 mm diameter and 3 inches length. It incorporates type C hexagonal male thread for watertight connections. The connection to the pipe is executed by thermofusion welding socket type, ensuring the structural integrity of the hydraulic system without the need for additional tools during assembly.

Description

NIRON threaded link 90 mm in diameter and 3 inches in length, designed for the safe connection of pipes using thermofusion technology. This accessory incorporates a type C hexagonal male thread, facilitating assembly and integration into fluid distribution systems. The connection with the pipe is executed by welding by thermofusion type socket, a process that guarantees the structural integrity of the set.

Technical characteristics

- Diameter: 90 mm x 3"
- Thread type: Type C hexagonal male
- Method of binding: Socket-type thermofusion
- Mark: NIRON

Thermofusion welding allows the components to form a unique body, ensuring a tight and stable connection between the tube and the accessory. This design minimizes the risk of leakage and provides a durable connection for industrial or high-flow applications.

Specifications

Diameter	90 mm
EAN	8017175005275

Manufacturer	Italsan
Long	3"
