NIRON PP blue threaded tap 20 mm with female thread 1/2

Brand: Italsan

Reference: ITAL NTF 2012

NIRON threaded blue polypropylene for thermofusion, with 1/2" brass female thread. Connection diameter 20 mm. Designed for referrals in hydraulic systems, ensuring sealing by welding socket that creates a unique body with pipe.

[View product online](#)**Description**

You are threaded NIRON in blue polypropylene, designed to make bypasses in pipe systems by thermofusion bonding. This connector allows you to connect three points of equal diameter, incorporating an output with female brass thread to facilitate connection with other components of the hydraulic circuit.

Technical characteristics

- Body material: Blue polypropylene.
- Thread material: Brass.
- Connection diameter: $\varnothing 20$ mm.
- Female Thread: 1/2".
- Type of binding: Thermofusion socket.

The combination of polypropylene and brass ensures compatibility with cold and hot water systems. The thermofusion welding process creates a unique body between the tube and the accessory, ensuring a safe and durable connection without leaks.

Specifications

Diameter	20 mm
EAN	8017175002601
Manufacturer	Italsan

Material	Polypropylene
Thread	1/2"
