Description

Iron washer with galvanized finish and nominal diameter of 1 inch. This component is designed to provide a stable support surface and distribute the load into threaded joints, facilitating the assembly of brass fittings and other attachment elements in plumbing or mechanical installations.

Technical characteristics

- Material: Iron
- Finished: Galvanised
- Nominal diameter: 1"
- Compatibility: Brass fittings for threading

The galvanized finish offers a protective layer on the iron, contributing to the integrity of the component in environments where moisture may be present. Its standard size of 1" allows a direct integration with most standard brass fittings on the market, ensuring a correct fit and secure fixation during the installation process.

Specifications

EAN	8499212291764
