Brass reducing ring 1x3/4" hexagonal valve

Brand: SOBI

Reference: SOBI 075403

Brass reducing ring with dimensions 1x3/4" and hexagonal valone. Designed to adapt threads in plumbing systems, allowing the safe connection between pipes of different diameters by means of a robust structure that guarantees watertightness in hydraulic installations.

Description

Reducer hoop made of brass with dimensions of 1x3/4" and hexagonal valone. Designed for thread adaptations in plumbing systems, ensuring a safe and efficient connection between pipes of different diameters through its robust structure.

Technical characteristics

- Material: Brass
- Measurements: 1x3/4"
- Type of walrus: Hexagonal
- Usage: Threading fittings

The hexagonal walrus allows a firm tightening with standard tools, ensuring the tightness of the bond. This component is essential to modify the diameter of connections in brass pipes.

Specifications

EAN	8431977202029
Manufacturer	SOBI
Material	Latón
Thread	3/4"
