Brass coupling against thread M-M 1/2 x 3/4

Brand: SOBI

Reference: SOBI 033203

Brass link against male-male thread 1/2 by 3/4 inches. Designed to connect pipes of different diameters by direct threading. Made of brass to offer corrosion resistance and durability in hydraulic or gas installations, ensuring a stable and safe bonding in standard fluid systems.

Description

Brass-to-male thread link designed to connect pipes of different diameters by direct threading. This groove allows you to attach threaded ends safely, facilitating the adaptation of fluid lines where the size of the connection is required to vary.

Technical characteristics

- Material: Brass
- Connection type: Against male-macho thread
- Measurements: 1/2 x 3/4 inches
- Function: Scratch for threading

This component is useful for adapting diameters in pipe systems, allowing a smooth transition between 1/2 and 3/4 inch sections. The male-male connection ensures direct coupling without the need for additional adapters, optimizing the space in the installation.

Specifications

EAN	8431977200292
Manufacturer	SOBI
Material	Latón
Measures	1/2 x 3/4 pulgadas
