Brass coupling against thread M-M 1/4

Brand: SOBI

Reference: SOBI 033011

Male-male brass link with 1/4" thread. Designed to connect hydraulic pipes with external threads, offering corrosion resistance and tight bonding in moderate pressure systems.

Description

Male-male brass link with 1/4" thread, designed to connect pipes or hydraulic components using external threads. This accessory allows stable connections to be established in fluid systems, taking advantage of the natural resistance of the material to corrosion.

Technical characteristics

- Material: Brass
- Connection type: Male-male
- Size: 1/4"
- Finished: Threadless

Its compact geometry facilitates installation in reduced spaces, ensuring a tight and stable connection. The standard 1/4" measure ensures compatibility with common facilities, optimizing performance in moderate pressure systems.

Specifications

Colour	Latón
EAN	8431977200230
Manufacturer	SOBI
Thread	1/4"
