Description

Male trunk designed for the connection of copper pipes, allowing direct leads or connections to be made in plumbing facilities efficiently and safely.

Technical characteristics

- Tube diameter: 18 mm
- Threaded connection: 1/2"
- Connection type: Male
- Compatible material: Copper

This component facilitates the integration of new lines or devices into the existing network, maintaining the integrity of the flow and the pressure of the system. Its standard design ensures compatibility with common industry tools and accessories.

Specifications

Diameter	18 mm
EAN	8431977202098
Manufacturer	SOBI
Material	Copper
# Elements	1
Thread	1/2"
