Brass Marsella Adapter 3/4" for Threads

Brand: SOBI

Reference: SOBI 062003

Solid brass Marseille Racor with a nominal diameter of 3/4 inches. Designed for connection of pipes by threading, ensuring watertightness and durability in hydraulic installations. Its metal structure resists corrosion and supports standard network pressures, facilitating assembly in cold or hot water systems without additional welding.

Description

Solid brass frame with a nominal diameter of 3/4 inches, designed for connection of pipes by threading. This component guarantees watertightness and durability in hydraulic installations, resisting corrosion and supporting standard network pressures. Its metal structure facilitates assembly in cold or hot water systems without the need for additional welding.

Technical characteristics

- Material: Solid brass
- Nominal diameter: 3/4 inches
- Connection type: Threaded
- Resistance: At corrosion and standard pressures
- Implementation: Cold or hot water

The brass construction provides a solid base for applications that require reliability in the connection of ducts. The Marseille rack format facilitates integration into standard pipe systems, ensuring a precise adaptation to the dimensions indicated.

Specifications

Diameter	19.05 mm
----------	----------

EAN	8431977202784
Manufacturer	SOBI
Material	Latón
Thread	3/4"
