DZR Brass Plug 2" Internal Thread BSPP

Brand: SOBI

Reference: SOBI 044007

DZR brass stopper with BSPP-G cylindrical inner thread according to ISO 228-1. Nominal diameter 2 inches (DN50). Polished surface without further treatment. Designed for watertight closure of pipes in sanitary or industrial installations, ensuring corrosion resistance and compatibility with standard threading systems.

Description

DZR brass stopper designed for airtight closure of pipes, avoiding the passage of fluids and maintaining the integrity of the hydraulic system. Its corrosion-resistant brass construction ensures a secure and durable connection in standard plumbing applications.

Technical characteristics

- Material: Brass quality DZR, corrosion resistant.
- Inner nominal diameter: 2 inches (DN 50).
- Connection type: Cylindrical inner Thread according to BSPP-G (ISO 228-1).
- Surface treatment: Polished, no additional treatment.
- Functionality: Covered, without drain or deairer.

The corrosion resistance of the DZR material contributes to the stability of the installation over time. The polished finish facilitates visual inspection and cleaning of the component. The BSPP-G standard ensures compatibility with standard cylindrical threads in the sector.

Specifications

Colour	Latón
Diameter	50 mm
EAN	8431977205969

Manufacturer	SOBI
Range	Industrial
Material	Latón
Measures	2"
# Elements	1
