## DZR Brass Plug 3/4" Internal Thread BSPP

Brand: SOBI

Reference: SOBI 044003

DZR brass stopper with BSPP-G cylindrical inner thread according to ISO 228-1. Nominal diameter 3/4 inch (DN20). Polished surface without further treatment. Designed for the hermetic closure of standard hydraulic connections, ensuring tightness and corrosion resistance in non-aggressive fluid installations.

### Description

DZR brass stopper designed for airtight closure of standard hydraulic connections. This accessory allows you to safely seal the end points of an installation, avoiding leaks and protecting the inside of the system. Its robust construction ensures a reliable connection in applications where a definitive closure of the flow line is required.

#### Technical characteristics

- Material: Brass quality DZR, corrosion resistant.
- Inner nominal diameter: 3/4 inch (DN 20).
- Connection type: BSPP-G cylindrical inner Thread (ISO 228-1).
- Surface treatment: Polished, without additional coatings.
- Functionality: Complete cover, no drain or deairer.

The corrosion resistance of the brass DZR ensures a long life of the component, while the polished finish facilitates visual inspection and cleaning. The BSPP-G standard guarantees compatibility with standard threads in water installations and non-aggressive fluids.

### Specifications

|        |               |
|--------|---------------|
| Colour | Pulido        |
