Description

One-piece DZR brass female, designed to perform symmetrical bypasses in pipe systems. Its uniform geometry allows to join three ducts maintaining the integrity of the flow in hydraulic or gas installations.

Technical characteristics

- Material: Corrosion resistant brass (DZR)
- Surface treatment: Polished, without additional protection
- Nominal diameter: 1 inch (25 mm) on all three connections
- Type of threading: BSPP-G cylindrical interior (ISO 228-1)
- Model: T-piece, not reducing and of one piece

The unique piece construction and the polished finish contribute to the sealing and durability of the component. Not reducing, it facilitates direct compatibility with pipes of equal nominal diameter.

Specifications

Colour	Pulido
Diameter	25 mm
EAN	8431977204573
Manufacturer	SOBI
Material	Latón
