Description

The A-50 model extensible neck is a plumbing component designed to connect appliances to water systems. It incorporates a double outlet adapter that facilitates flow distribution and includes specific accessories for 1.1/2" siphons. This configuration allows efficient integration in domestic installations where connection flexibility is required.

Technical Features

- A-50 Model.
- Double outlet adapter for appliance.
- Accessory for 1.1/2" siphons.
- Prepared for smooth tubes.

This design optimizes space and functionality by allowing simultaneous connection of two outlet points. Compatibility with smooth tubes ensures direct adaptation to standard pipe systems, simplifying the mounting and maintenance process.

Specifications

EAN	8426621220009
Manufacturer	Jimten
Measures	1.1/2"
