J-61 mixed joint M 20-1/2 thread

Brand: Jimten

Reference: JIMT 355011

J-61 mixed link from Jimten's 55 Range, equipped with M 20-1/2" male thread. Designed for compression connections in high and low density polyethylene pipes. Its compact structure optimizes assembly in infrastructure systems, complying with European certifications of technical reliability required in industrial applications.

[View product online](#)**Description**

The J-61 Mixed Link is a compression accessory designed for connection of high and low density polyethylene pipes. It belongs to Jimten's 55th Range, a line recognized for the breadth of its connection solutions.

Technical characteristics

- Model: Mixed link J-61
- Thread type: Male M 20-1/2"
- Compatible material: PE pipes (high and low density)
- Mark: Jimten
- Product line: Range 55

Its compact structure facilitates assembly in pipe systems. The technical reliability of the component has been validated by European certification organisations, ensuring a safe and consistent performance of infrastructure applications.

Specifications

EAN	8426621013090
Manufacturer	Jimten
Range	Industrial
