Disassemblable PVC ball valve 25 mm for polyethylene pipe

Brand: Jimten

Reference: JIMT 052536

Detachable sphere valve made of PVC, designed for 25 mm connections with polyethylene pipes. Its structure allows disassembly to facilitate maintenance and internal cleaning. Suitable for flow control in agro-food and industrial installations, ensuring a reliable and durable operation in fluid systems.

Description

Removable sphere valve made of PVC, designed specifically for connection with polyethylene pipes. This component allows flow control in agro-food and industrial facilities, offering a reliable solution for fluid handling.

Technical characteristics

- Material: PVC
- Type: Detachable sphere valve
- Nominal diameter: 25 mm
- Compatibility: Link for polyethylene tube

The removable structure facilitates the handling and maintenance of equipment. Its specific polyethylene design ensures a proper connection with this type of pipe, optimizing performance in fluid control systems.

Specifications

EAN	8426621525364
Manufacturer	Jimten
Material	PVC
