Description

Detachable sphere valve made of PVC, designed for flow control in agro-food and industrial installations. Its design allows a specific connection with polyethylene pipe, facilitating fluid flow management in various technical environments.

Technical characteristics

- Material: PVC
- Type: Detachable sphere valve
- Nominal diameter: 50 mm
- Connection: Link for polyethylene tube

This solution brings versatility to the control of installations, adapting to the needs of each application within the mentioned sectors.

Specifications

Diameter	50 mm
EAN	8426621525395
Manufacturer	Jimten
Material	PVC
