### Description

J-73 compression tea diameter 40 mm, designed for connection of high and low density polyethylene pipes. This accessory belongs to the Jimten 55 Range and offers a reliable solution for fluid distribution in pipe systems.

#### Technical characteristics

- Diameter: 40 mm
- Model: J-73
- Compatible material: PE pipes (high and low density)
- Type of binding: Compression
- Mark: Jimten (Gama 55)

It stands out for its compact design and ease of installation. The reliability of the product has been validated by different European Certification Organisations, ensuring a safe performance in industrial and infrastructure applications that require watertight and durable connections.
