Description

1" threaded male stopper made of polypropylene, designed as a compression accessory for high and low density polyethylene pipes. This component allows the effective closure of driving lines, ensuring a secure connection in fluid installations.

Technical characteristics

- Material: Polypropylene
- Size: 1"
- Type: Threaded male
- Implementation: PE pipes (high and low density)
- Validation: Tested by European Certification Organisations

Its compact design facilitates handling in reduced spaces, while certified reliability ensures constant performance. Installation facility optimizes assembly times in plumbing or industrial projects.

Specifications

EAN	8426621515051
Manufacturer	Jimten
Material	Polypropylene
Thread	1"
