Description

1/2" threaded male plug made of polypropylene, designed as a compression accessory for high and low density polyethylene (PE) pipe systems. This component allows the effective closure of fluid lines, guaranteeing the watertightness and integrity of the installation in industrial and commercial applications.

Technical characteristics

- Material: Polypropylene
- Size: 1/2"
- Connection type: Threaded male
- Compatibility: PE pipes (high and low density)
- Classification: Compression accessory
- Certification: Tested by European Certification Organisations

Its compact design facilitates handling in small spaces, while reliability proven by European bodies ensures constant performance. The ease of installation allows rapid integration into existing polyethylene networks, optimizing assembly time and reducing the technical complexity of the line closure.

Specifications

EAN	8426621515013
Manufacturer	Jimten
Material	Polypropylene
Thread	1/2"
