Description

2-inch male cap with thread made of polypropylene. This compression accessory is specifically designed for use in polyethylene pipes, both high and low density, offering an effective closing solution for installations of this type.

Technical characteristics

- Nominal diameter: 2 inches
- Connection type: Threaded male
- Material: Polypropylene
- Compatibility: High and low density PE pipes
- Classification: Compression accessory

Its compact design facilitates handling in small spaces. The ease of installation and reliability of the product have been validated by different European Certification Organisations, ensuring a performance consisting of standard polyethylene pipe applications.

Specifications

EAN	8426621515037
Manufacturer	Jimten
