Description

The 1/2" threaded macho is a compression accessory made of polypropylene, specifically designed for connection of high and low density polyethylene pipes. This component allows safe connections in fluid installations, taking advantage of the properties of the material.

Technical characteristics

- Material: Polypropylene
- Size: 1/2"
- Connection type: Threaded
- Compatibility: PE pipes (high and low density)
- Validation: Tested by European Certification Organisations

Its compact design facilitates handling in reduced spaces, while certified reliability ensures constant performance. The ease of installation reduces assembly times and minimizes the risk of errors during start-up.

Specifications

EAN	8426621504109
Manufacturer	Jimten
Material	Polypropylene
