Description

Reduced sucker of 1-3/4" threaded made of polypropylene. Designed for compression connections in high- and low-density polyethylene pipes, allowing diameters to be adapted in fluid distribution systems.

Technical characteristics

- Material: Polypropylene
- Nominal size: 1-3/4"
- Connection type: Threaded
- Implementation: PE pipes (high and low density)
- Category: Compression accessory

This accessory complies with the regulations of the European Certification Organisations, guaranteeing structural reliability. Its design facilitates installation in the field, offering efficient and safe assembly for connection of polyethylene pipes.

Specifications

Diameter	1-3/4"
EAN	8426621507544
Manufacturer	Jimten
Material	Polypropylene
