Description

1/2" threaded female stopper made of polypropylene. This compression accessory is designed for closing polyethylene (PE) pipes, both high and low density, offering a reliable sealing solution for hydraulic installations.

Technical characteristics

- Material: Polypropylene
- Size: 1/2"
- Connection type: Threaded female
- Compatibility: PE pipes (high and low density)
- Classification: Compression accessory

The compact design facilitates handling in small spaces. The reliability of the product has been validated by different European Certification Organisations, ensuring a performance consisting of standard market applications.

Specifications

EAN	8426621515105
Manufacturer	Jimten
Length	1
Material	Polypropylene

Measures	1/2"
Weight (kg)	0.02
Thread	1/2"
