

Product sheet

PP Threaded Reducer H 3/4" M 1/2

Brand: Jimten

Reference: JIMT 050601

Screwed polypropylene reduction with 3/4" female input and 1/2" male output. Designed to connect high and low density polyethylene pipes, allowing diameter changes in fluid systems. It complies with European certification standards, ensuring reliable installation and stable technical performance in industrial and domestic applications.

Description

Screwed polypropylene reduction with 3/4" female input and 1/2" male output. This accessory allows to adapt diameters in systems of high and low density polyethylene pipes, facilitating the connection between sections of different calibre.

Technical characteristics

- Material: Polypropylene
- Connection: Female 3/4" and Male 1/2"
- Type of binding: Threaded
- Compatibility: PE pipes (high and low density)
- Validation: Tested by European Certification Organisations

Its compact design favours integration into reduced spaces, ensuring stable technical performance in fluid installations.

Specifications

EAN	8426621506011
Manufacturer	Jimten
Range	Industrial

Material	Polypropylene
