Description

Reduction threaded male 1" to female 1/2" made of polypropylene. This accessory is designed for connecting high and low density polyethylene pipes, allowing different diameters to be adapted in fluid installations safely and efficiently.

Technical characteristics

- Material: Polypropylene
- Connection: Male 1" to Female 1/2"
- Type: Threaded
- Implementation: PE pipes (high and low density)
- Certification: Tested by European Certification Organisations

Its compact design facilitates installation in small spaces, ensuring a reliable connection. The compatibility with PE pipes of different densities offers versatility in plumbing and industry projects, ensuring constant performance.

Specifications

EAN	8426621515198
Manufacturer	Jimten
Material	Polypropylene
