

Product sheet

Threaded reducer M 1" H 3/4" polypropylene

Brand: Jimten

Reference: JIMT 051554

Screwed polypropylene reduction with 1" male input and 3/4" female output. Designed to connect high and low density polyethylene pipes. It meets European certification standards for compression systems, ensuring a secure and compact bonding in standard channeling facilities.

Description

Screwed polypropylene reduction with male size 1" and female size 3/4". This compression accessory is specifically designed for connection of high and low density polyethylene (PE) pipes, ensuring a safe and efficient connection in channeling systems.

Technical characteristics

- Material: Polypropylene
- Connection type: Threaded
- Input diameter: 1" (male)
- Output diameter: 3/4" (female)
- Compatibility: PE pipes (high and low density)
- Validation: Tested by European Certification Organisations

Its compact design facilitates integration into reduced spaces, while ease of installation allows quick start-up. The reliability of the component ensures constant performance in standard market applications.

Specifications

EAN	8426621515549
Manufacturer	Jimten

Material	Polypropylene
Measures	1"-3/4"
