Description

The S-29 bottle siphon is a drain component specifically designed for sinks and sinks. Its main feature is the extendable neck and tilted outlet, elements that allow to adjust the height of the installation and facilitate the flow of water, guaranteeing an efficient technical solution for the management of wastewater in reduced spaces.

Technical characteristics

- Model: S-29
- Type: Siphon registrable bottle
- Connection diameter: 1.1/4"
- Height or length: 32 mm
- Extensible neck
- Sloping output
- Includes racor

The extendable structure optimizes the space under the furniture, adapting to different installation configurations. The included rack ensures a stable connection with the drainage network, minimizing the risk of leakage at the connection point and offering an adaptable and functional installation.

Specifications

High	32 mm
Width	1.1/4"
Diameter	1.1/4"
EAN	8426621020562
Manufacturer	Jimten
Measures	1.1/4" x 32 mm
Weight (kg)	0.5
Depth	32 mm
