Offset curved P-trap S304 1.1/2

Brand: Jimten

Reference: JIMT 006968

S-304 recording curved syphon for sink, extensible by tailing. It incorporates horizontal output and socket for appliances. Dimensions 1.1/2" x 40mm, designed to optimize the space available under the furniture.

[View product online](#)**Description**

The curved siphon S-304 is a drainage solution designed specifically for sinks, optimizing the space available thanks to its displaced structure. This model incorporates a horizontal outlet and an additional socket to connect appliances, facilitating water management in compact kitchens.

Technical characteristics

- Model: S-304
- Type: Recordable curved siphon
- Connection diameter: 1.1/2"
- Height: 40 mm
- Output: Horizontal
- Includes socket for household appliances
- Extensible by tailing

Its displaced design allows for a more agile installation in reduced spaces, while the possibility of extending it with racor offers flexibility in adapting to different furniture configurations. The appliance outlet centralizes the drainage connections, keeping the working area orderly and functional.
