Description

The curved siphon S-31 is a plumbing accessory designed for sewage disposal in sinks. Its curved structure allows for efficient installation, while the extendable neck facilitates adaptation to different mounting heights, ensuring a secure connection through the integrated rack.

Technical characteristics

- Model S-31 with curved design.
- Extensible neck with tail included.
- Horizontal water outlet.
- Diameter 1.1/2" (40 mm).

This component offers a practical solution for standard drainage systems. The horizontal configuration optimizes the space available under the sink, and the possibility of extending the neck allows adjusting the length according to the specific needs of the installation without requiring additional parts.

Specifications

High	40 mm
EAN	8426621060285
Manufacturer	Jimten
Diameter (cm)	4 cm
