

Product sheet

**Extensible curved siphon S31
horizontal 1.1/4**

Brand: Jimten

Reference: JIMT 006046

S-31 registrable curved siphon designed for sinks, equipped with extendable neck and tail. It has horizontal output and dimensions of 1.1/4" x 32mm, facilitating installation in reduced spaces and optimizing drainage flow in domestic or professional plumbing systems.

[View product online](#)**Description**

The curved siphon S-31 is a drainage solution specifically designed for sinks, highlighting its recordable structure that facilitates maintenance and its extendable neck that allows to adapt to different heights of installation. It incorporates a cork for a secure connection and has a horizontal outlet that optimizes the flow of water in the plumbing system.

Technical characteristics

- Model S-31 with curved and registrable design.
- Includes extendable neck with integrated tail.
- Water outlet in horizontal position.
- Dimensions 1.1/4" x 32mm.

This technical configuration allows a flexible installation and easy access to the inside of the siphon for cleaning or repair, ensuring efficient drainage management in the sink.
