Description

The curved siphon S67 is a desagüe component designed for sinks, characterized by its recordable structure that facilitates the maintenance and cleaning of the sewage disposal system.

Technical characteristics

- Model S67 with curved design.
- Includes extendable neck with integrated tail.
- Orientable output to facilitate connection.
- Connection diameter 1.1/4".
- Measure of 32 mm.

The recordable configuration allows access to the inside of the siphon without the need to disassemble the entire system, optimizing the cleaning time. The extendable neck and adjustable outlet provide flexibility in the installation, adapting at different distances between the drain and the main wall or pipe.

Specifications

Diameter	32mm
EAN	8426621060766
Manufacturer	Jimten
