Description

Siphon double syphon S7 designed for sinks, characterized by its bottle structure with extendable necks and horizontal output. This model incorporates fittings to facilitate connection and offers a double siphon configuration that optimizes space and functionality in kitchen or bathroom facilities.

Technical characteristics

- Model: S7
- Type: Double syphon with central bottle collector
- Connection: Extensible collars with tail
- Output: Horizontal
- Measures: 1.1/2" x 40mm

The presence of extendable necks makes it possible to adapt the height of the siphon to the specific needs of the furniture, while the horizontal output facilitates integration into corners or reduced spaces. The double siphon design ensures effective water retention, contributing to hygiene and odour control in the installation.
