Description

The short bottle siphon S-84 is a desagüe solution designed for washbasins and bidets, characterized by its horizontal output and registrable mechanism. This component allows a flexible and adjustable installation, facilitating connection in spaces where the distance between the drain and the wall may vary slightly.

Technical characteristics

- Model S-84 with short bottle design.
- Diameter of the extensible valve 63 mm.
- Includes PVC stopper, chain and fastening rings.
- Horizontal water outlet.
- Dimensions 1.1/2" x 40 mm.

The registrable structure offers a practical advantage by allowing fine-tuning of the siphon position during installation. The stopper and chain assembly ensures an effective closure of the drain, while the PVC material of the stopper contributes to the durability of the daily accessory.

Specifications

EAN	8426621040683
Manufacturer	Jimten
Material	PVC

Depth	40 mm
