Description

The 32 mm diameter J-78 final cap is a compression accessory designed for high and low density polyethylene (PE) pipes. It belongs to the Jimten 55 Range, renowned for offering one of the widest range of accessories on the market, outstanding for its compact design and reliability proven by European Certification Organizations.

Technical characteristics

- Model: Final stopper J-78
- Diameter: 32 mm
- Application material: PE pipes (high and low density)
- Type of binding: Compression
- Mark: Jimten (Gama 55)

This component guarantees a simple and safe installation, taking advantage of the robustness of the compression systems to ensure watertightness in polyethylene installations.

Specifications

EAN	8426621014080
Manufacturer	Jimten
Material	Polietileno
