Description

Removable sphere valve made of PVC, designed for flow control in pipe systems. Its structure facilitates fluid flow management in technical facilities, offering a practical solution for liquid management in industrial or agro-food contexts.

Technical characteristics

- Material: PVC
- Type: Detachable sphere valve
- Nominal diameter: 63 mm (2 inches)
- Construction: Central body

The removable configuration allows for more direct access for maintenance, while the central body ensures a compact structure. This design adapts to specific flow control needs, simplifying integration into existing polyethylene or PVC networks.

Specifications

Diameter	63 mm
EAN	8426621525067
Manufacturer	Jimten
Range	Industrial

Material	PVC
Measures	63 mm
