Disassemblable PVC ball valve 20 mm with polyester tube link

Brand: Jimten

Reference: JIMT 052281

Detachable sphere valve made of PVC, designed for flow control in agro-food and industrial installations. It incorporates a link system compatible with polyester pipes, facilitating installation and maintenance.

Description

The 20 mm detachable PVC sphere valve with polyester tube bond is a component designed for flow control in installations. This model, manufactured by Jimtem, allows to manage the flow of fluids in different contexts, highlighting for its removable structure that facilitates maintenance and connection through the specific polyester link.

Technical characteristics

- Valve material: PVC
- Valve type: Demountable sphere
- Nominal diameter: 20 mm
- Link: Polyester tube
- Mark: Jimtem

This device offers a practical solution for the control of installations, being suitable for applications in the agrifood and industrial fields. Its design allows easy integration into systems that require flow regulation with polymer components.

Specifications

EAN	8426621522813
Manufacturer	Jimten
Range	Industrial

Material	PVC
Measures	20 mm
