Description

Detachable sphere valve made of PVC, designed for flow control in agro-food and industrial installations. This 32 mm model incorporates a polyester tube bond, making it easier to integrate into pipe systems that require flexibility and strength.

Technical characteristics

- Body material: PVC
- Type: Detachable sphere valve
- Nominal diameter: 32 mm
- Link: Polyester tube

The removable structure allows for more agile maintenance and easy replacement of internal components if necessary. The use of PVC and polyester offers a light and suitable solution for fluid handling in various productive environments, ensuring effective flow control.

Specifications

Diameter	32 mm
EAN	8426621522837
Manufacturer	Jimten
Range	Industrial

Material	PVC
Measures	32 mm
