Disassemblable PVC ball valve 20 mm solvent weld

Brand: Jimten

Reference: JIMT 052201

Ball valve made of PVC with a nominal diameter of 20 mm. Its removable design allows internal maintenance without disassembly of the pipe. The connection is made by gluing, guaranteeing sealing in agro-food and industrial facilities. Suitable for accurate fluid control in low pressure systems.

Description

20 mm detachable PVC sphere valve, designed for gluing mounting. This component allows flow control in agro-food or industrial installations, offering a versatile solution for various applications.

Technical characteristics

- Material: PVC
- Type: Detachable sphere valve
- Diameter: 20 mm
- Connection system: Collapse

The removable structure facilitates maintenance and cleaning of the inside of the valve. Its design is aimed at ensuring effective fluid flow control in PVC pipe systems.

Specifications

Diameter	20 mm
EAN	8426621522011
Manufacturer	Jimten
Material	PVC
